

SCHOOL LIAISON PROGRAM NEWS

Suggested Summer Activities for Children

Keeping children busy during the summer can be a stressful moment for families. Here are some suggestions:

1. Join a Summer Reading Program— visit libraries and discuss books read (See links to Dahlgren library, Barnes & Nobles, Pizza Hut and Chuck E. Cheese for summer reading incentives on this page)
2. Nature walks—Explore local parks or nature reserves, observing wildlife & learning about ecosystems, identifying insects, plants, trees, flowers, etc.
3. Design something instead of just doodling. Redecorate room—brainstorm for ideas
4. Take a how-to-class rather than just watching a show—(See [Craftech](#) and Parks and Recs for available classes)
5. Cook/bake together—Allow the child to choose or use a cook book with pictures to choose from
6. Build a fort indoor or outdoor –use recyclables. Invite friends to help out.
7. Experience something out of the ordinary—Visit relatives—Allowing children to experience different types of living such as country life vs. city living
8. Volunteer— Simple tasks such as stocking Food pantry, reading to younger kids at the library, etc. can be meaningful.
9. Create a game together—take advantage of the kid's knowledge and skills in technology.
10. Virtual excursions—With adult's guidance, take children for a tour virtually of interested places, different states and various countries.

Additionally, letting older kids plan activities can bring excitement to any family events. Create a tasks chart & calendar of schedule for organized and fun Summer! **Enjoy every fun memories with your children this Summer!**
