

# SCHOOL LIAISON PROGRAM NEWS

## Supporting Student's Academic and Mental Health

The U.S. Department of Education announced major actions and investments from government, the private sector, and nonprofit organizations to support student academic and mental health recovery as part of the Department's broader effort to help students, schools, and communities recover from the pandemic and emerge stronger. The American Rescue Plan (ARP) has funded efforts to help students recover academically through summer learning and enrichment and has enhanced educational and mental health supports in districts across the country.

Some Local Education Agencies (LEA) use the funding to offer summer camps, summer classes, summer events and virtual trainings to the community. Visit your local school's website for opportunities.
