WHAT IS THE FEDERAL IMPACT AID SURVEY ABOUT?

Every year, around Fall, local schools send home a survey form for Federal Impact Aid.

Do you know why Impact Aid funding is important for your child's school? This funding is provided to school districts to offset the loss of property tax on federal property. The Federal funds provide replacement funding for operating expenses such as materials, equipment, staff, special education programming and building improvements as part of the general funding of the district.

What Can You Do as a Parent and Guardians of Children of Military and DOD civilians?

It's simple: Each year your child receives the Federal Survey Card form that requests confidential information regarding his/her federal connection (including military dependents), thoroughly complete and promptly return this brief survey to the school. That's it! Your participation can contribute to your child's school funding!

Remember:

*Incomplete cards cannot be submitted for Impact Aid; thereby, creating a loss of funding for the district.

*Information provided is protected under Privacy Laws. For more information on Federal Impact Aid, visit [Office of Impact Aid Programs](#).
